

Name	Kento Sakai
Country	Japan (Waseda University Senior and Junior High School)
Title	Invitation to ASEAN countries at Gakuin
Objective	To let Gakuin students gain the knowledge about ASEAN countries, and boost their interest
Outline	The action was mainly carried out in my school. And I had a plan for the library. I found that there are actually so many books written on Southeast Asia in my school, but most of those books are old and outdated. (Over 20 years ago!) So I realized I should work for adding relatively new books to the library in my school.
Actions taken & result	I've requested the committee to buy three books for the library (politics, economy, and Buddhism of Southeast Asia). Three books I've requested were arrived alright and I've succeeded to add new books to the library. And now I think that I've accomplished the minimum things I should do with my project.

Books added to the library
