Student Name:

Antixa Xayaphone

Country:

Lao P.D.R

Theme: The roles of my country and of Asia in the future.

Length: Maximum of 1,000 words

Language: English

In modern society, our world has changed very much especially my country, Laos and also the other countries in Asia. Each country always develops their own country and plan to be on top of the countries that have a very good economic in the future. Laos also has a development which is goes rapidly. Most of the countries in Asia are abundant of natural and mineral resources.

The first thing to note is that Laos is a country that located in Asia and one of the countries that consists of a very plentiful of natural resources and also rich in mineral resources. In Laos there are diversities of the ethnical groups which are going to be part of the best destination for the visitors all around the world in the future to learn, respect and help preserve. The tourism in Laos is one of the branches that can make a very high income for our country. From what you can see is the foreign

tourist arrivals increased from 2.7 million in 2011 to 4.9 million in 2015, that means in the future there might be more visitors in Laos and it's going to be one of the important roles of Laos. Moreover, in Asia the visitors rate also go up, there're so many places in Asia that can magnetize the foreigners to come and visit Asia. All of the countries in Asia, they have their own best destination and thus the rate of the visitors in Asia may have more and more figures in the future. Secondly, like what I have written above that Laos is very plentiful of natural resources, the wood was adapted as a very important export by change it into wood products to make it more values. Besides, there're also clothing, coffee, electricity, metals, corn and rubber which are the main export from our country. From these exports we're trying to develop and make it more high-quality to ensure that our products are going to play a role in the future. Furthermore, Laos is going to be a battery of Asia because Laos was facilitated by the environment and the region that very appropriate to invest in build the dam. Nowadays, Laos export electricity to many countries in Asia and this is a very significant of Laos to improve and to be one of the countries in Asia that play a role in commerce

in the future. Thirdly, In Asia there are so many countries that very interesting to invest in especially in Laos, our government opened the special economic zone which is comprise of 8 places in Laos, one of them is the Golden Traingle and this is aiming to develop the area into an economic and complex tourism zone so these special economic zones may be the main pillar of Laos to make our country more prosperous. In Asia there are numerous of industries. Some of the countries in Asia, they have a heavy industries, high tech manufacturing, financial industries, survices, etc. These industries are going up rapidly in recent years and keep rising more and more in the future.

From an overall perspective, Laos and all the countries in Asia have a very good economic that develop their country which is means to improve the economic in Asia also and to praise the position of Asia in the future.
