

**Toshiba Youth Club Asia Vol.3
Action Plan Template (Group T)**

Group & Vision	Name	Title (What)	Objective (Why)	Where	Actions (How)	Timescale (When)	Goal
"By 2040, we will be a strong Asian region working well as partners based on our identities and diversities, and through modern technologies, build and sustain environments and communities"	Youee (Cambodia)	"Nutrition and hygiene understanding for kids"	1. To teach kids what nutritious meal is 2. To encourage kids to wash their hands properly 3. To encourage kids to eat more fruits and vegetables instead of candies and sweets	Primary school students at AIS (American Intercon School) in Phnom Penh will learn about hygiene, especially ways to wash their hands properly, as well as will be encouraged to eat healthy meal with more vegetable and fruits, instead of candies and sweets. The lessons will be taught through PowerPoint presentation, in which the examples of meals I ate in Japan will be shown as in pictures.	1. Hold educational event at school and introduce about the project 2. Kids age from 6-7 will be encouraged to join 3. The lessons will be taught through PowerPoint presentation 4. Afterward, kids will be assigned to practice what they have learnt 5. Drawing and coloring the pictures related to the lessons 6. Posters and drawings of hand-washing methods and nutritious meals will be hung on the school walls along with paintings on the walls	April: Preparation May: Hold the event at school and also ask for donation, especially from school, to buy necessities. Start the project. June: Submit the progress report to BeGoodCafe	Hopefully, during break times at school, fruits will be eaten as snacks more than candies and sweets. Kids can learn more about nutrition and hygiene. Expectantly, kids will always remember to wash their hands properly, without rush, before they eat.
	Kenny (Myanmar)						
	Anh (Vietnam)						
	Tatsuya (Waseda)	"Introducing Japanese railway by twitter"	1. To promote advantages about importing Japanese railway system. 2. To make public opinion to choose Japanese train against importing cheap, low quality train. 3. To make asian transportation convenient, safe and ecological by exporting Japanese railway system.	Using our Facebook group for the place to write column about technology and service of Japanese train system.	1. Search technology or service of Japanese rail system that is not used in other countries. 2. Write one column about technology and service of Japanese train system per week. 3. Ask for question. 4. Choose next topic from question and write.	April: Action plan May: Search and write. June: Submit the progress report to BeGoodCafe	I hope more people to know about Japanese railway system and choose it when they are importing it from some country. China already did some big advertisement in asia, so I think Japan also have to do even if it is small action.
