

# **Final Report of TYCA Project**

**“The Initiative of a Harmonious Cooperation a Plentiful  
Environment in the Future“**

**By Antyka Xayaphone**

**June 26<sup>th</sup>, 2017**

## **I. OBJECTIVE**

This activity is aiming to make the students realize the importance of cooperation; How to work in a group and also to raise the youth's eager of learning new things. In addition, the protection of our environment is needed so this activity is part of the ways to solve the problems of our surrounding. Lastly, I'd like to encourage young people to be aware how to save the world which is not only mention to but make it into reality.

## **II. ACTIVITY INTRODUCTION**

The activity was held in a public school which called Pakse Senior High School and it's located in Champasak Province, south of Laos. There were around 60 students attend in this activity so they were separated into six groups and worked together from May 2<sup>nd</sup>-5<sup>th</sup>, they got only one and a haft hour each day for doing their works. Because this few time, it could bring out their enthusiastic of working with one another.

## **III. ACTION**

### **1. Posters**

To invite students, posters were spread around the school.

# Our plentiful environment

✧ Workshop: How to solve the environmental problems 27 / 4 / 2017

Participants

Me on my workshop

The invited teacher

Doing some Q & A with participants

### 3. Start the action

Warming up before start

Q & A with participants again

A bit talk about Japan

Giving them some suggestions before begin

On their works

We make with love :)

And seriously

#### 4. Final result

We invited teacher to be a referee, and give us some advices and comments on our activity.

Our water bottle budgets handmade

Finding the winner

The winner team

- Each budget was placed around school and use for dropping plastic bottles only ( plastic bottles were sold and the worth of them was used for buying necessity things for school)
- To make our activity much fun, the entertainment and games were served.

Playing some games

## IV. SUMMARY

Through this activity, what they can get from one another is friendship, teach them to know how to work in a group with a limit time and also challenge themselves on working with people they don't even know. Furthermore, they can also gain their knowledge of leading the world to be better in the future and understand the situation of the world that we're living in.

**SPECIAL THANKS FOR TYCA:** lastly I'd like to say thank you to the TYCA Program very much for giving me a wonderful chance to learn and gain my knowledge. This activity would never happen if there was no TYCA Program so hopefully TYCA will stay strongly for giving our next generation opportunities to learn like what I've learnt.
