Final Report

TYCA 2017 Vol.3

The action that inspired me is Tomoko's action that is ASEAN CULTURE SHARE DAY that takes place at her own school that it is easy to access and easy to spread the information to students. So I decided to take my action place at my own school.

The next action that inspired me about the time is Yoshie's action that is making a brochure of TYCA and the importance of negotiation. That is exhibiting at school festival. So I decided to exhibit my booth at school festival too. Because the school festival is the day when the student will gather at the exhibition hall and my booth will be easier to be seen by student in the school.

April

Conclude and summarize the knowledge from TYCA Vol.3.

 Design the booth and prepare information about vision and leadership for the booth's forum.

May

- Prepare for applying to the school booth.
- Contacting with teachers.

June

- Apply for school's submission.

The Consciousness That Have Changed

There're lots of things that has changed in these three months after TYCA Vol.3. The first thing I felt that I have increase more self-confident by joining the program at Japan that is the farthest program and activities in the program are very helpful to make me enjoy it and learning deeper about my self confident too, such as sharing ideas with friends or working on big presentation. The next thing that come up with is the leadership in my self. The one thing I learned from the program is the leader doesn't mean you have to be boss but the leader is the one who have direction in doing something and reach their team to the goal. During the program, I have earned a lot new experience from this program. Such as foreign

friends, new knowledge, cultures from ASEAN countries. This program teaches me lots of things. For example, When you stuck at the problem, sometimes you can't solve it on your own but you can share idea with friends and solve it together. I also got the new technique that is when you face the problem, just stay calm and always be smile. You won't be stress and you can solve it easily.

Activity Schedule

School's Schedule

Book.

พฤ. 24	ใหว้ครูข่าง 6 บดินทร	กลุ่มสาระฯ ศิลปะ กลุ่มบริหารวิชาการ	ป.ด.
