

**Toshiba Youth Club Asia Vol.3
Action Plan Template (Group C)**

Group & Vision	Name	Title (What)	Objective (Why)	Where	Actions (How)	Timescale (When)	Progress (Goal)
"To achieve sustainable economic development through technological innovation and regional cooperation to provide a healthy, stable quality of life and a safe environment to live in harmony while embracing diversity"	Neung (Laos)	"Classification & Recycling of Garbage at School"	1. To elevate the environmental awareness of the students by demonstrating systematic disposal of garbage at school 2. To reduce pollution by wastes 3. To illustrate the benefits of recycling 4. To provide a clean environment for better learning	My school (Vientiane High School) which is located in the centre of Vientiane capital because it is the easiest to have access too and there are a lot students.	1. Hold educational event at school and introduce about the project, the project will focus mostly about environment since environmental issue is one of the most serious problem in my community at the moment. 2. we'll start by a having a little introduction and educate them about the importance of the environment and why we must protect them. 3. Buying rubbish bins and place them in multiple different places around the school, the trash will be seperated in each bins (recyclable, landfill...) 4. if possible, we will ask for fund or have a contribution from students to buy seedlings and start planting them around and outside of school.	Time will be managed after I finished my other project and my finals since around this time, I will have to focus on my finals.	my project aims to raise people's awareness about the environment and educate them and hopefully, in the future, my project can grow more and I can help the community t be a cleaner and better place.
	Christine (Philippines)	1. "Research Group Formation"	1. To broaden the scope and depth proceeding actions 2. To increase the action team's productivity and performance 3. To instill change not only in my barangay but in other barangays as well (for example, the Research Group members' barangays)	The Action will be conducted through an orientation at my house. As it is currently summer break in the Philippines, we cannot conduct it in the school premises and thus, will have a meeting at my house instead.	1. Contact the people chosen to be included in the Research Group. 2. Explain the Vision of the group and the actions it plans to take. 3. After the mutual agreement, have a meeting wherein I can share my learning in the Toshiba Youth Club Asia Program and discuss about the Action Plan.	1st Week of May: Preparation 2nd Week of May: Accomplishment of actions presented for Action 1 3rd Week of May: Submission of progress report to BeGoodCafe June: Submission of application for TYCA Social Grant	This first action aims to accomplish the action I have presented during the Final Presentation on the last day of the program: create my own Research Group. This Research Group aims to spread and accomplish the vision created by my group, Group C, during the TYCA Volume 3.
		2. "PAK, Go Green! Community Advocacy" (PAK = Pilipino, Aaksyon Ako / Filipino, I will act)	1. To share the lessons I learned in the Toshiba Youth Club Asia Program Voume 3 2. To increase my community's awareness regarding the environmental and industrial problems that the world is facing right now 3. To persuade them to take actions, to act after learning 4. To strengthen the bonds of the citizens in the community	The program is planned to take place in an available free area within the community/barangay.	1. Prepare the program timeline, location, content, games and prizes. 2. Inform and invite my community's citizens about the advocacy program. 3. Conduct the program on the scheduled date and location. 4. End on a high, impactful note with every participant elated and educated. 5. Share progress on social media.	June: Preparation July: Execution of Actions August: Submission of progress report to BeGoodCafe.	The main goal of Action 2 is to share my learnings and increase awareness in the community through engaging talks and fun individual and group activities in order to encourage other people to do something about the world's glaring environmental problems. This Action also aims to strengthen society solidarity within the neighborhood.
	Dutch (Thailand)	"Road to leadership"	1. To make the student realize about the importance of leadership. 2. To make student have more self confident and leadership. 3. To guide the student the way of leadership	In my School. I will setup the booth in school festival and create workshop, games and provides knowledge forum about the leadership.	1. Introduce about the project to teachers 2. Hold the workshop in school event as the plan 3. Check and follow up the project (If we get the TYCA Social Grant)	April: Preparation May: Ask for permission at school and Design the booth. June: Begin the project and submit the progress report to BeGoodCafe July: Apply for TYCA Social Grant Action expands if I get the Social Grant	To make student realizing the importance of leadership and hopefully, they could use their own leadership skill to develop and make the social better. Also create their self confident. By learning through games and workshop, I hope that everyone can enjoy my booth and they can use their skill in in real life.
	Tomoko (Oki-Dozen)	"ASEAN CULTURE SHARE DAY"	1.To notice importance of diversity and personality thought touching differnt cultures. 2.To learn happily about different cultures thought experiencing.	the community cafe in Ama called Ama ma-re	1.Provided some booths →Playing Logy & Nomy, Myanmar, Philippines, Malaysia,Playing traditional children's play, Teaching greetings of ASEAN countries, Cafe&work 2.Make a round with stamp rally	Contact to collaborators:April Make proposals of some booths:May Preparation:May-June Hold the event:June 18	Many people live in Ama are interested in ASEAN countries.
